Many thanks again for a lovely dinner on the roof of your delightful home -- I will long remember the decor as well as the tender steaks -- also the fine company, of course!!

Please tell [ ] that I spoke to [ ] about trying to schedule at least three days in your country so that he could get a couple of days for relaxation. It was too early for [ ] to plan that closely but I am sure he will keep it in mind. In any event, [ ] might want to needle him in a personal letter.
